

Dr. Khademhosseini, Junior PI, was awarded “Pioneers of Miniaturization Prize 2011” by the Royal Society of Chemistry’s Lab on a Chip Journal.

The Pioneer Prize is awarded annually for extraordinary or outstanding contributions to the understanding or development of miniaturised systems. It is the most highly recognized prize in the field of micro-technology.

Dr. Khademhosseini was given this prize for his leadership in the engineering of microfabricated tissue structures with tissue-like architecture and functionality.
